Subject: Extension on renewal application submission- Air Force Academy MS4 COR042007
Date: Monday, June 29, 2020 9:21:00 AM

Hello Barry,
Based on our conversation this morning, the renewal application for the Air Force Academy (AFA) MS4 permit (COR042007) is currently in the process of going through AFA's internal channels for signature, and there will be a slight delay in getting it to us prior to the 180-day renewal deadline. Given the circumstances, AFA is granted an **extended application due date of July 17, 2020**.

Just as a quick note- due to some of our legal requirements, we will still need to get a hardcopy of the application documents (with original signature) for our records. However, with delays associated with the current covid-19 circumstances in mind, please feel free to go ahead and submit the application electronically by email (to make the deadline) and mail the hardcopy as a follow-up at your earliest convenience. The receipt date for the electronic version received via email (if received prior to the hardcopy) will be the date used as the official application received date.

As the new extended application deadline approaches, please do let us know if other challenges related to the current covid-19 situation arise that may impact your ability to get the application submitted.
Thank you!
Alysia
