Subject: RE: FMC Groundwater Flow Model Webinar

Dr. Beljin has another obligation in an hour. I suggest we listen to what they have to say and withhold direct comments until Monday or so.

Could you be available in a couple of hours? Would that be sufficient time for pre-webinar review?

Subject: RE: FMC Groundwater Flow Model Webinar

Greetings Jonathan,

After discussing the issue with Dr. Beljin, I would suggest postponing the call until they provide us something to review. If you still want to have the call, we will likely not have comments until we can review the materials. But, the decision is up to you.
Cheers,
rrr

In about an hour we're scheduled to discuss the groundwater flow modelling FMC has conducted so far in response to EPA comments. Have you guys received anything to review in advance of the teleconference?
