Stillwater, NY 12170

Re: Request for Information Pursuant to Section 1445 of the Safe Drinking Water Act
Docket Number SDWA-PWS-IR-15-001 – SDWA-PWS-IR-15-002
Stillwater Water District #1 (PWS ID # NY4517534)
Stillwater Water District #5 (PWS ID # NY4530219)

Dear Mr. Curtis:

This letter is in follow-up to the United States Environmental Protection Agency's (EPA) October 14, 2014, Safe Drinking Water Act (SDWA or Act), Section 1445 Information Request Letters (IRLs) (enclosed) issued to Stillwater Water District #1 and Stillwater Water District #5 regarding compliance with the SDWA and National Primary Drinking Water Regulations (NPDWRs) and your responses to those requests.

The EPA's IRLs required submittal of information in order to determine compliance with the Stage 2 Disinfectants and Disinfection By-Products Rule (Stage 2 DBPR) for Stillwater Water District #1 and Stillwater Water District #5. Section 1445 and 40 Code of Federal Regulations (C.F.R.) Part 141 Subpart D (§141.31) authorizes the EPA to require the submittal of information so it can determine a public water system's compliance with federal drinking water regulations.

The information that you provided to the EPA on October 27, 2014, represents an appropriate response to the IRLs. No further information is required at this time.

Please note, Stillwater Water District #1 and Stillwater Water District #5 must continue to monitor for total trihalomethanes (TTHM) and five haloacetic acids (HAA5) in accordance with 40 C.F.R. Part 141, Subpart V and according to the approved Stage 2 DBPR monitoring plans. The samples shall be analyzed in accordance with 40 C.F.R. §141.621(a) and reported to the New York State Department of Health (NYSDOH).

The EPA appreciates your cooperation and prompt attention to this matter. If you have any questions or need additional assistance please contact Stephanie Sessoms-Midgett of my staff at (212) 637-3352.

Sincerely,

Doughlas McKenna, Chief
Water Compliance Branch

Enclosure
