Subject: Action Items for Friday
Attachments: COVID FAQs new and revised 5 13 2020AD.docx; For Alex approval: New & Updated COVID FAQs for web; Flx DDL; For Alex Review: OPP update on BCF requirements

Hi Alex, in an effort to flag items for tomorrow, should you have time to address them, I note a couple items below and also forward the incoming list from Carol Ann with other items from Comms and RICs. Please note that the 3 attachments are related to Comms topics with flexible deadlines. The RICs Items you will see further below. I am not sure of the deadlines for those but the packages are with you. On Friday Melissa will provide a the final updated list of actions. Hope this helps in the meantime.

FRIDAY, May 15

- Due to OIG 9AM Monday - Draft Response to OIG Draft Report on Safer Choice program (*in May 13 binder)*
- IO Clearance of PBT rule package *(Alex reviewing)*

Comms

Three attachments:

- New & Updated COVID FAQs for web; Sent to AA on 5/14; Flexible Deadline
- OPP Update regarding BCF Guidance; Sent to AA on 5/14; Flexible Deadline

RICS

- **PIPs NPRM** – Need AA OK on approach for robust voluntary notification option
  (AA email of May 14, 2020 10:33 AM says she'd get back to us by 2 pm today).
- **PBTs FRMs** – Need AA final approvals for the remaining FRMs so that the FAR package can go out (have AA OK for 2 of 5).
- **FRL 10008-29; FRN #1 for ICR Revisions involving TSCA Test Orders** – Originally sent to AA on 5/7, I resent it to AA on 5/12.
- **AA Approval for 4 time sensitive FRNs signed by DDs that we sent to her today**
  AA received 7 NEW items today (1 is actually for David), of those there are 4 that are marked as time sensitive:

FRL	Title	Time Sensitive?
10009-14	Fenpyroximate; Pesticide Tolerances; Final Rule	PRIA date is 5/18/20.
10009-75	Dinotefuran; Receipt of Applications for Emergency Exemptions, Solicitation of Public Comment; Notice	This notice of receipt of emergency exemption requests must publish and allow for a 15-day public comment period before EPA can make its decision on the requests. The situation to be addressed is an emergency and time-sensitive as the use season is imminent.
10009-29	Receipt of a Pesticide Petition Filed for Residues of a Pesticide Chemical in or on Various Commodities; Notice	Republishing NOF that was already done to fix an error caught by OGC during final rule (amended tolerance exemption) review with regard to how the commodities and their derivatives are represented. Needs to be redone by early summer for a PRIA due date later this year.
10009-31	Pesticide Product Registrations; Receipt of Applications for New Uses	Republishing NORs that were already done to clarify what is covered under the scope of the uses in one instance and to correct an error that was noticed too far

		along in the process in the other instance. Need to be redone by early summer for PRIA due dates later this year.
