Re: United States Environmental Protection Agency NPDES Industrial Stormwater Inspection Report

Dear Mr. Bullock:

Enclosed is a compact disc which includes a copy of the U.S. Environmental Protection Agency's (EPA) inspection report outlining observations from the Clean Water Act inspection conducted at Super Salvage, Inc. on February 20, 2013. The report also includes information gathered before and after the February inspection.

I encourage you to read the report carefully. If you believe any of the information is inaccurate or if you would like provide supplemental information regarding the observations in the report, you may provide a written response, within thirty (30) calendar days, to be included in EPA's files. This inspection report and any other information gathered by the EPA may be used in making a compliance determination with federal regulations.

EPA inspection reports do not contain compliance determinations (i.e. whether or not a violation has occurred). The observations listed in the report will be reviewed by EPA to determine if any follow-up actions are necessary.

If you have any questions, please feel free to contact me at 215-814-2373.

Sincerely,

Allison Graham
Environmental Engineer
NPDES Enforcement Branch
