The Honorable Ralph Abraham, M.D.
U.S. House of Representatives
Washington, D.C. 20515

Dear Congressman Abraham:

Thank you for your June 7, 2016, letter to the U.S. Environmental Protection Agency inquiring about the status of a pesticide emergency exemption request filed by the Louisiana Department of Agriculture and Forestry.

On June 1, 2016, we received a Section 18 request from the Louisiana Department of Agriculture and Forestry for the use of imidacloprid on sugarcane to control West Indian cane fly. However, Louisiana subsequently withdrew their Section 18 request for the use of imidacloprid and submitted a crisis exemption request to use acetamiprid instead on June 16, 2016. We have concurred on Louisiana's crisis declaration. As of June 21, 2016, growers have been able to use acetamiprid on sugarcane.

Again, thank you for your letter. If you have further questions, please contact me, or your staff may contact Sven-Erik Kaiser in the EPA's Office of Congressional and Intergovernmental Relations at kaiser.sven-erik@epa.gov or (202) 566-2753.

Sincerely,

James J. Jones
