A 28 year-old female was admitted to the Frank Howard Memorial Hospital in Ukiah for an alleged exposure to an unknown organophosphate pesticide and potential exposure to a combination of cleaning agents additionally. The PIR identifies the female as an employee of a cannabis farm that applies pesticides with her husband. The PIR also specifies the patient stated to the registered nurse that she was cleaning her house with a cleaner and bleach at the onset of her illness.
Attached please find a copy of the Priority Investigation 44-MEN-16's 15-Day Report.
