<u>Spill No. 07-50373 – Titan Express, Binghamton, Broome County-</u> This facility has eleven buried tanks with a total capacity of 41,000 gallons, all of which are out of PBS compliance. There are a 15,000 gallon steel gasoline tank, 11,000 gallon steel gasoline tank, two 8,000 gallon steel gasoline tanks, 6,000 gallon steel gasoline tank, and a 3,000 gallon steel gasoline tank. There are a 8,000 gallon steel diesel tank, a 6,000 gallon steel diesel tank, a 4,000 gallon steel diesel tank, and a 4,000 gallon steel kerosene tank. In order to investigate the spill at this facility, work will involve the removal, cleaning, and disposal of all the tanks and associated piping. A minimum of five samples will be collected from each tank excavation. If the removal of all the tanks results in one large excavation more samples will be collected. The number of samples collected will be determined in the field. Grossly impacted soil will be removed and disposed at a permitted facility. The PBS number for this site is 7-186619. We have a signed access agreement. The site address is 400 Court Street, Binghamton NY. **Contact is Dick Brazell, (315) 426-7523**.

Beginning of next week - FEI sampling - Test pits?
- MON - 28 Jan
