**Subject:** Suggested Comment to Exide Plan Response
**Date:** Thursday, February 21, 2013 2:42:00 PM

---

Tom and Guy,

In on our discussion yesterday, Guy mentioned that perhaps it would have been beneficial to stipulate in our original comments on the Exide plan something to the effect that if ambient air concentrations showed elevated levels that processes/approaches to the plan may have to be revisited.

Do we want RCRA to include that type of comment in the response that they are currently preparing?

Maria
