I don't have any concerns with those changes. Thanks!

Subject: OWP Hot Issues Updates Needed

The hot issues that I think need updating are:

- 404. (Karen) Both the front summary page and the paper, esp. for milestones.
- UT303d (Sandie) Both the front summary page and the paper, esp. for milestones.
- MT Variance (Ayn? Johanna?) Milestones on front summary page, contacts
- FBIR – (Sarah) ORC contact changed to Lucita?
- Dewey Burdock (Douglas) Public comments extension, milestones.

Please also ensure you're adding info on milestones coming up between now and August – as the intent of these papers is to highlight decisions needed/activities occurring – in the next 30, 60, and 90 days.

Subject: Hot Issues Updates Needed

SLT:

Please take a few minutes next week to review the Hot Issues papers on the e-Briefing site and update, as needed. Please be especially sensitive to any milestones previously included that have either already been complete – or – which have deadlines in need of revisions. Please also ensure you're adding info on milestones coming up between now and August – as the intent of these papers is to highlight decisions needed/activities occurring – in the next 30, 60, and 90 days.

We've delayed providing access to all hands until we work out a few glitches. So, if any of your reviewers don't already have access, please let me know and I'll grant it ASAP.

Thanks in advance for your assistance.
