Subject: Update for call with Larry Lau on Thursday, March 25
Date: 03/22/2010 03:54 PM

Nancy, Here is a draft of the items for the March call with Larry:

GROUND WATER

1) On March 10th, EPA issued a letter to the County of Maui directing them to apply for CWA 401 certification for their injection wells at Lahaina. We requested that they submit an application to DOH by May 11. We copied DOH Clean Water and Safe Drinking Water Branches on the letter.

2) We understand that SDWB is drafting a letter to send for Governor's approval to purchase an LCMS - basically a high-tech piece of lab equipment that will be very useful for DOH monitoring efforts. DOH is proposing to spend $600K (split 50/50 between GW 106 and DWSRF wellhead protection funds). EPA is supportive and keen to have LCMS purchased by end of FY to spend down the 4-year 106 GW grant which ends in Sept 10.
