I believe an hour would be more than sufficient.

Sure Sean –

Would an hour be long enough or will you need more time.

Hi Toni,

Would Friday at 2:00 Eastern be available?

We can also use the following conference line:

Dial: 760-569-6000;
Code: 708232

Best,
Sean

Sean –

Good Morning! We actually have a director from Headquarters here on Wednesday. Would Thursday or Friday be possible at all?

Thanks,
Toni

Hi Toni,

Thanks for helping coordinate.

Would Wednesday, 7/15 possibly work on Becky's end? Marianne is pretty flexible between 10:00 and 4:00 Eastern.

Many thanks,
Sean

Sure. Perhaps Sean can work with Toni to set up. I am speaking at a conference Monday but after that we can figure it out. I suggest my air manager be part of conversation since he is fairly involved. We had a meeting w Republic and multiple parties a couple weeks back. Are you representing them?

Becky,

Hope you are well!

Do you have a couple of minutes to discuss the Republic Services operation at Westlake Landfill? They have some concerns about their sulfur emissions and we wanted to get your take (if any) on the issue. My colleague Sean McGinnis will coordinate a time for us to chat.

Thanks a bunch in advance,

Marianne
