Just passing along as a "last call" to ensure we don't anticipate additional needs as it doesn't look like there will be any unless we speak up now.

Any thoughts, or should we go ahead with what we have? Looks good to me, but don't want to speak for the team on this until I've conferred.

Hi Ben.

I just wanted to be sure you know that the task order supporting regional TASC projects will be completely spoken for for the remainder of the period of performance (through June 21, 2016). The West Lake support under the technical approach that you are currently reviewing has been included in the budget and will be covered, but any additional West Lake support we probably won't be able to accommodate.

Are you okay with the technical approach for directive *R7 #1.1 West Lake* having seen Kirby's response, or do you have additional questions?

Let me know if you have any questions.

Thanks,

Freya

Hi Ben,

Great question. Yes, the info graphic is included under the fact sheet category. We look forward to finishing that up!

Best,

Kirby

Hi Kirby,

We only have one question: does the info graphic that TASC has worked on fall under the "fact

sheets" category of deliverables? We don't see it represented, but want to be sure you're able to complete that as a part of this TD.

Thanks,

Hello Ben, Freya and Tina,

Attached please find a draft project approach for the West Lake Landfill TASC project. Please let us know if you have any questions or if you approve this project approach as it is.

Thanks all,

Kirby
