Attached is my minimally edited version, incorporating changes per discussion with you and Dan including removing questioners' names – except for three highlighted locations where my edits were uncertain. Acronyms in first reference are identified.

Also, I found a valid link to replace the bad link we deleted (in three locations under **Community**), so I replaced the deleted sentences ending with the valid link. All links in the document are now good.

Please review and send final web-ready version to me for posting. Thanks -MK

Did a quick scan of the Q&As and checked the links. Please see several comments in attachment. Waiting for Dan to get back to me on two unidentified acronyms in headings. I prefer to just delete them. There's a bunch of acronyms in the text unidentified in first references, but I think I can handle those.

There's really nothing Jeff or I can do until you and Dan get back to me. In the meantime, we're standing down on posting.

Thanks -MK

Martin, Chris, as I discussed with you yesterday afternoon, here are the fully concurred portal questions and answers for placement on EPA's website. Martin, you asked for this in Word, so that's how I've provided it.

DO NOT include the first page (concurrence page) of this document in the webpage upload.

Please let the team know when the upload is complete. Call with any questions.

Sincerely,
