Hi Yohji,
This is interesting. Please take a look at it. I'll be back in the office on Wednesday morning and we can discuss then.

Hmmm....

We could use this to our advantage. Parcel E ROD is scheduled for 2/18/2011 and the rest of Parcel D ROD is scheduled for 4/19/2009. If demolish any buildings in the open areas of Parcel D and E and make a parking lot, that would be the cap. Please have your contractors look at the open areas without buildings or with few buildings for a possible parking lot and see if the total area equates to 107.59 acres or more. I know the landfill is 22 acres on Parcel E-2. We then have to figure out what actions, if any, need to be done with this proposal.

Melanie

Keith:

as we discussed, Michael Cohen wants to have a backup plan for the use of Parcel C for interim parking in 2012 - in case the C area demolish the buildings and pave doesn't happen fast enough.

We need a total of 107.59 acres - as shown on the attached diagram.

the intention is to pick areas that don't have buildings - like on top of the landfill or the current open space shoreline of E or D.

let me know if you need more info.
let me know a timeframe when you might be able to come up with preliminary ideas.

thanks,

re: interim parking plan at the Shipyard

Amy, according to Lennar, the parking count on the attached diagram is 17,500 spaces.
