Deliberative/attorney work product

Hi KC,

Hope you had a good trip! I don't expect anything that needs immediate action while I'm out, but here are a few updates in case you are contacted:

- **R8 PW stakeholders meeting** – initial discussions took place in R8 this week (Monday and Tuesday). R8 and HQ reps. had a series of separate session with: (1) academia; (2) states; (3) industry; (4) NGOs. Tricia said the meetings were well-attended and very informative. Discussion around discharges of produced water as well as gaps in information such as lack of info. about PW constituents, effectiveness of treatment technologies, etc. Tricia and Amy (NPDES) will be sharing the attendees list and some notes. Sounds like HQ is planning to do some outreach with tribes – Tricia and Amy are in touch with HQ

Ex. 5 AC/DP

- **R8 PW Spills strategy** – met with Tricia and Cindy yesterday (Cindy continues to be involved, esp. due to air enforcement interests). Tricia and I are working on drafting different pieces of the overall strategy. The section I'm working on centers on legal authorities. Once we have an initial framework or draft, we plan to meet with some of the OSCs that are active in responding to spills to get their input/advice on how to make it most useful to them and then with the PW workgroup. At some point, we will re-engage with Sandy S. who chaired the initial PW group and discuss how to proceed.

- **Dewey Burdock EJ Analysis.** After reviewing comments received on our draft EJ analysis, there are a

Ex. 5 AC/AWP/DP

- **Dewey Burdock ESA analysis.** Lucita and I met with Douglas, his staff lead and their SEE employee who is working on the draft analysis. This is going to be a heavy lift for our office - I think it will end up taking quite a bit of my time.

- **R8 Tribal Resource Center** – our group met last week (Kim Varilek, Kim Opekar, Paul Felz, Callie was out sick) – we are scheduled to meet with Deb when I get back. I spoke with Brian a bit about this yesterday and will keep you both posted.

I'll be back at work on Tuesday, June 5.
Thanks, Kimi
