I would think you can proceed with the DABP since items are discussed (albeit not in great detailed). The document is a living document and can be modified at any point in time after approval. But it's OEM's call. Let me know and I'll let the folks know.

Hello, Gerain.

I will still proceed with a review due date of 5/25/11 for this ABP, but just wanted to clarify if this ABP will be what OSWER wants to proceed with after the postponement of Options Selection due to reanalysis of a few issues (i.e., setting a "de-minimus" reporting threshold; creating a methodology or conversion factors to calculate emissions for a RQ determination; and how we would streamline reporting requirements). I think a couple of those items being reconsidered are covered by some mention in the current ABP, but how OSWER will potentially go about creating a methodology or conversion factors to calculate emissions for a RQ determination is not (for example, the scientific analysis section does not discuss this aspect and currently says thresholds will not be presented in options). Therefore, I wanted to check if the reanalysis for Options Selection may impact the draft of this ABP in any way as I am proceeding to review and gain concurrence for the current version.

Thank you.

- Walter

Subject: Concurrence Requested: Detailed Analytic Blueprint for CERCLA/EPCRA Reporting Requirements for Air Releases of Hazardous Substances from Animal Waste at Farms NPRM (Tier 2; SAN 5484)

Attached is the detailed analytic blueprint for the CERCLA/ECPRA Reporting Requirements for Air Releases of Hazardous Substances from Animal Waste at Farms NPRM (Tier 2, SAN 5484). Please provided your AA/RA-level concurrence to me (cc Lynn Beasley and Richard Mattick) by no later than 5/25 (sooner would be great!). For the detailed analytic blueprint stage, only two levels of concurrences are possible: concur or concur with comment. Attached also are: (1) a list of people who have been delegated to concur for the AA/RA on detailed analytic blueprint; (2) workgroup list; and (3) a redlined/strikeout version of latest changes.

Let me know if you have any questions or concerns. Thanks.
