Yes, that is correct. And glad to hear that you are off the hook on jury duty.

Natalie,

One more question (by the way, the Jury Duty only lasted a few hours, false alarm), to meet the deadline Savoy must **send** the response and information to your office by end of business tomorrow 10/10/2014, correct? This means the package needs to be post marked 10/10/14, and you will receive it when the USPS delivers it, correct?

Thanks,

Dylan

Dylan,

We have had companies in the past send us password-protected pdf files (without giving us the password to view them), which is clearly not useful when our purpose is to review those pdfs...that is probably the origin of the "unsecured" reference in the request for information.

I believe that how you have configured your pdf meets the "unsecured" request – the ability for us to be able to print and/or extract certain parts of a pdf is tremendously helpful in facilitating a more efficient review of the information. Obviously we are not going to modify original content, even if the "no security" setting allows it.

Again, thank you very much for your diligent work on this and attention to detail.

Natalie,

The request for information specifies the use of pdf files and that they be 'unsecured'.

Please see screen shot of Adobe Security settings. Will these settings be satisfactory?

Natalie,

I recently received a letter from Leelanau County notifying me of a potential jury duty obligation. This could create a challenge to meeting this Friday's deadline to submit requested information to your office. I have attached a copy of the jury duty notice to this email. I should know if I will be selected tomorrow. I have been the lead person here at Savoy pulling together the information required to respond to the EPA's information request, and have a strong desire to finish the project.

Wanted to let you know about this sooner rather than later. I will touch base with you tomorrow following the outcome of preliminary visit to the court.

Regards,
