I guess I am confused. I was looking for the RA's electronic signature and date on the document. Did I miss something?

This is the hard copy of the electronically-signed version. I checked sharepoint and it shows the document as being signed by Mr. Sopkin.

Do we have a copy of the signed version?

Valois – this is fantastic, and I'm thrilled that we completed this project in a much shorter timeframe than initially anticipated. I believe the signature approval went faster, too, due to our electronic sharepoint routing. Is Powertech interested in using this now-approved variance anytime soon?
