Subject: RE: UIC Unit Meeting - the two topics: request for help with initial MIT permit requirements for Dewey-Burdock and primacy program reporting requirements for end of year FY18 .

Sure, I'd be glad to cover this approach – go ahead and put me on the agenda. Thx.

Bruce

Hi Bruce,
Thanks very much! This info is very helpful.

I just talked this over with Jill Dean and the ND 1422 program yesterday. She says that HQ doesn't expect the 7520-4 every quarter, but does want to see it at mid-year and end of year. So it is up to the regions to decide if they want it quarterly. Jill suggested we go back to the agreements we have with each state to see what they committed to doing. You have already done that, so I think it would help to share your approach with the group so we can all be on the same page.

I think Wendy is going to schedule a tech meeting to cover both topics.

Hi Valois, count me in for both meetings.

Regarding the state submittals, I now have Utah on a schedule where they submit their pdfs to me no later than Apr 15 (midyear) and Nov 15 (EOY). This allows me to meet the requirements stipulated in our state oversight guidance. (See table below.) You'll notice that the 7520-4 you mentioned is indeed included in the table.

Timing for Submission of 7520 forms

		Midyear	End of Year
	Forms	7520-IIA, 7520-IIB, 7520-IV	7520-I,7520-IIA,7520-IIB,7520-III,7520-IV
Dates	Beginning of reporting period	October 1	October 1
	End of reporting period	March 30	September 30
	Completed forms due to Regions or HQ	May 15	November 15
	Region or HQ review forms for completeness and consistency	May 15 – June 30	November 15 – December 31
	Regions provide PDF copies of forms to HQ	July 1	January 1

Subject: RE: UIC Unit Meeting - the two topics: request for help with initial MIT permit requirements for Dewey-Burdock and primacy program reporting requirements for end of year FY18 .

Hello All,
I apologize for leaving the UIC staff meeting early yesterday. I had another meeting to attend. I still wanted to share these two topics with & get input from the group:

I would like to schedule a meeting to discuss how I should handle permit requirements for the initial MIT reports and authorization to inject for Dewey-Burdock Class III wells. If you would be willing to be

involved in this meeting, please reply & let me know. It would be helpful to have a broad discussion on a practical method for dealing with hundreds of initial MITs for these Class III wells.

The other topic is just for the primacy program project officers: I just wanted to let our state program project officers know the reporting requirements for the end of FY18 reporting. Each primacy program should submit pdfs of the 7520 forms to you, then we pass these along to Jill Dean in HQ. The new UIC data application is being tested, but is not operational yet. The other item we need to discuss is Are we going to require our primacy programs to submit the quarterly exceptions report, 7520-4 in January or February. I could schedule a meeting to talk about the primacy program reporting expectations, if that would be helpful. Please reply to let me know if you would like me to schedule a quick meeting for this topic.

Thanks!

Valois
