Just one edit Ex. 5 Deliberative Process (DP) Nikhil had some edits on BAB's side, too. And then hopefully that should be it. BTW Brett has an internal meeting with BEAD setup of the afternoon on this subject—a little late for PRD's need here but still might be good to talk. Thanks, Steve

Thank you Briana!! I will send over to BAB and see if they have anything to add from their perspective! Steve- let me know if you have any edits. Goal will be to send by noon. Really appreciate the quick pull on this Briana!!!

Hope

Good morning Hope,

Thank you for sending along the ag usage document and BCP. I have made edits to the information using these two documents. Please let me know if you would like me to make any edits to this or if you would like me to send this back to PRD. Thank you!

Importance: High

Briana-

Could you please take a look at the below information PRD drafted and see if you have any edits from the SIAB point of view? Do you have availability to do this by noon Monday?

Previously Rafael did some background work for this chemical as something was needed on an expedited basis. I'll forward that to you to ensure you have that for background.

Thanks very much! Let me and Steve know if you are unable to do this Monday and we can discuss/figure out an alternative plan.

Thank you!
Hope

Subject: spirodiclofen paper on voluntary cancellation/data deficit/new prospective registrant

Dear BEAD Colleagues,

Elissa met with Ed and Mike today and it turns out, Mike would like some information on the importance of spirodiclofen in walnuts and citrus in particular. We have gleaned some info from the 2014 BCP and searched the USDA crop profiles. Please take a look and comment based on your expertise. We are supposed to get back to Ed/Mike on Monday and your input by noon Monday would be extremely helpful. Please let us know if this is possible.

Ex. 5 Deliberative Process (DP)

Thanks so so much,

Jill
