Subject: Updates

Hi Monisha,

Here are some updates from me....

Pyraziflumid
Hazard Document submitted for PRP review on 12/2

Pyroxasulfone- OGC confirmed that they don't have any comments
11/23 finalized and sent to RD (Kraft/Mellor) on 11/23

Young citrus followed up with Heather/RD on 11/23 with BEADs questions for registrant.

Aldicarb DD briefing 11/24/20 DD briefing review for AA

Oxyfluorfen 11/23
Dexter and Tom are working with our BCs to finish up the assessment on oxyfluorfen. In the PRP draft we still have some unanswered questions around the scope of a specific mitigations, the proposed ban on hand dispersal applications. PRD (Jones) informed BEAD on 11/23 that oxyfluorfen moved to a Q2 publication. TJ replied and let PRD know that BEAD would like to complete as quick as possible.

DD Antibiotics briefing is set for 12/10 – Tara updated slides on 11/23 (#25, 26, 27)- need to follow up with RD for them to incorporate BEAD edits.

PRD oxadiazon memo 11/24
Benefits and impacts memo for review sent to BC on 11/24- already went to PRP review. Santiago noted that we still have a placeholder for questions coming in from USDA regarding nursery applications- which is estimated to be received by Dec. 4th.
PRD has delayed PID until next quarter as of noon 11/24- Now waiting to hear back from USDA and then will resend with updated info for BC review

I have updated the tracking sheet so everything should be accurate. If you find anything I missed- please let me know and I can update as needed. I sent the **RR SOP** documents around earlier this afternoon. It has some comments that are specific to the RR committee/process and it would be helpful if Nikhil/Mark could review. I believe Nikhil will be out until Tuesday, but he previously mentioned he could take another look then when he returns. If anyone has any questions on anything- please let them know they can always follow up with me.

Thanks and have a great weekend!
