Tom/Deborah and cc's

Just received the following documents from Chris Hornback – revised draft agenda, meeting logistics instructions, and participant list (note that our former Charles Delos will be there now working for the contractor, Great Lakes Environmental Center [GLEC], who is both a contractor (or was) to OST and is now a contractor for NACWA.

Subject: Ammonia Criteria Stakeholders Meeting

Ammonia Stakeholders Meeting Participants –

NACWA and the other sponsors of the Ammonia Criteria Implementation Stakeholders Meeting – WEF, WERF and ACWA – are looking forward to seeing you next week in Arlington, Virginia, and to having a productive discussion.

The meeting is located at 2733 Crystal Drive in Arlington (EPA's Potomac Yard North Building, Two Potomac Yard) in room: 4120N (on the Fourth Floor). If needed, there will be someone in the lobby and/or on the 4th floor to guide you to the room. We start at 8:30 AM on Wednesday, 10/29.

You will need to go through security when entering the building. Picture ID (driver's license) is required. New rules require people from Alaska, American Samoa, Arizona, Louisiana, Maine, Massachusetts, New York, Oklahoma, and Washington to have an additional form of ID, in addition to their driver's license. Passports are best.

The workshop is business casual, so ties, etc. are not necessary. The weather for next week looks warm, highs in the 70s for Tuesday, but more seasonal on Wednesday and Thursday, with lows in the 50s and highs in the 60s. Chance for some rain on Wednesday.

For those preparing presentations for the meeting, please submit them to me by Monday at 5pm Eastern if possible. We'd like to print out copies for folks to take notes and we need to load them on the presentation computer. Let me know if you don't think that will be possible.

Attached are the following:
-Logistics (with meeting location, times, hotels, etc.)
-Participants list – please let me know if you have any concerns/edits with how your contact information is listed.
-Draft Agenda as of October 24, 2014 – please let me know if you have any concerns/edits.

Please contact me with any questions or concerns.

-Chris
