Title: Aldicarb New use on Orange and Grapefruit

Predecessors:

Priority: (2) Normal

Task Status: Not Started

% Complete: 0%

Document Created By: Nadrchal, David

Assigned To: Metzger, Michael; Savoia, Pete; Deleon, Heriberto; Liccione, John; Drew, Danette; Carter, Destiny; Ford, Emma; Jackson, Melantha; Rogers, John Patrick; Lowe, Kelly; Dobreniecki, Sarah; Donovan, William

Description: This petetion is for a new use on oranges and grapefruit in Florida. No new tolerances are proposed as one already exists for citrus.

The timeframe on this is tight. This RA includes updates from reg review in the dietary and occuptional sections. I've attached supporting material for the occupational and the dietary memo for review as well.

Let me know if you have any questions.

Thanks,

David
