Hi Geoff,

Glad to have a chat however I will tell you I have not done any research on PFAS in solar panels. I did a literature review in a service I have called Scifinder back in 2018 for a professor emeritus at NC State and sent the literature review to a reporter as well. I am attaching the document I sent them. This is the extent of my knowledge on this topic.

I was quoted without my knowledge from the reporter I sent this document to while we were chating.

Mark

Subject: solar panels and GenX

Dr. Strynar,
I wanted to see if you are available for a brief phone discussion regarding your research into GenX and other perflourinated contaminants and solar panels. I am trying to bring myself up to speed on this issue and its relevance with policy moving forward.

Best regards,

Geoff Marke
