Subject: nw area committee meeting notice for Portland area stakeholders

Hi Mark –

We talked awhile ago about publicizing the next NW Area Committee meeting to any environmental stakeholders in the Portland/NW OR area. Here is the notice we drafted, and tried to think about what the general public might get out of it. If you can live with it, will you send it out to your network? If you can't live with it, feel free to give me comments or make changes yourself. I've also included a copy of the meeting agenda.
