2020 08 10 - PLP Mitigation reconsideration memo.pdf

Shane,

Good afternoon. It was good to have you on the WebEx meeting for the proposed Charles Etok Edwardsen Mitigation Bank. Congratulations on becoming the North Section Chief.

The District's denial letter that you distributed references a September 20, 2020 letter from the District to PLP that identified specific compensation requirements. Can you clarify whether the reference should be to the District's August 20, 2020 letter? Did the District send a second letter to PLP on September 20? EPA doesn't have a copy of a letter from September 20, 2020.

Several weeks ago, the ADNR released documents about discussions they had with PLP concerning compensation options on state lands within the Koktuli River watershed. One of the released documents was dated August 10, 2020 and titled Pebble Limited Partnership Request for Reconsideration on Compensatory Mitigation (attached). Did PLP submit a request for reconsideration to the District either before or after the District sent its August 20 letter to PLP? If they didn't, this document may just be an analysis that PLP shared with ADNR as part of their discussions on compensation.

Thanks,

Matthew LaCroix, Biologist

All,
For your records, attached is the correspondence USACE sent to PLP regarding the permit decision. There are no attachments (Appeal Form). Additionally, I would like to inform your agency that the public project website (pebbleprojecteis.com) will be sunsetting on the first of January 2021. All the documents and associated data etc will then no longer be publicly available. Thank you for your participation in the process.
