Subject: RE: Engineers without Borders

Hey Kathy,
Wow. Not good. I may have mentioned NSBE (National Society of Black Engineers) www.nsbe.org . They do a lot of community projects and will host based on the rotating conference location. But, it's worth looking into. Not sure how they are operating under covid. They have different Chapters based on the Region. St. Louis ... based on their website is in Region IV. And has an email. R4pebprograms@nsbe.org I would write them about service projects they are doing. We can chat more. Tami

Hi Tami,

I remember you talking about Engineers without borders, right??? East St. Louis, IL is in a bad situation. I was wondering if anyone at this organization is familiar with these issues or interested potentially in exploring.
