Subject: Re: Sharing GenX Sampling Results with the Public

Jenny,

I see no issues with sharing the sampling data (PII redacted) with the public. I'm not sure why the second round results were never posted - I believe we forwarded this to our communication office weeks ago. Also, has everyone in EPA R5

had a chance to review the letter to Chemours requesting a third round of GenX testing? I'd like to put it through for concurrence later today. Thanks.
Roger

Subject: Sharing GenX Sampling Results with the Public

Hi All,

I am just checking, we can share the range of GenX numbers for the second round of sampling with people who inquire from the public, right? I think we can because the first round is posted on our web page at the link below. I wouldn't share the homes' addresses, just the numbers like the link does.

https://www.epa.gov/sites/production/files/2018-04/documents/hfpo_chemours_wash_works_sampling_2018.pdf

Also, we can tell them the exact results for the public water supply systems, right?

Thank you,
Jenny
