Subject: G7 EMM - Thank you!
Attachments: Concrete Initiative G7 EMM 2019.pdf

Good morning colleagues,

On behalf of the G7 EMM team at EPA, special thanks to all of the coalition/initiative leads that provided thorough guidance, review, and endless support with the quick turnarounds. It was not an easy process to work through and we couldn't have made it all happen without your expertise. We have not yet heard from France on timing for next steps and will keep you updated once we know more.

Additionally, EPA had a call with several members from the U.S. Chamber of Commerce to provide a readout on outcomes from the G7 EMM.
There were a few specific questions raised, including one regarding the deforestation declaration. We had a robust response and members were happy to hear that we pushed hard on the U.S. proposed deforestation declaration.

For your awareness, I've attached the outcome document on the concrete initiatives that describes which initiatives were launched, strengthened or joined by several G7 members and outreach countries.

Best,
Elle
