If you have a spare…30+ min…I highly, highly recommend reading through this remarkable exposé The Intercept published over the weekend on the various problems surrounding plastics and plastics recycling: https://theintercept.com/2019/07/20/plastics-industry-plastic-recycling/. There's not much they don't cover, from Fact and Figures to National Sword to chemical recycling to the WRAP program. Very interesting and challenging perspective on the issues the plastics recycling system is facing. Thanks, Lia, for sharing!
