Subject: AltEn Sample Analysis
Attachments: Copy of Pace Pesticide List_PAL.xlsx

FYI, see the attached spreadsheet provided by Pace that indicates which of our targeted pesticides they'll be able to analyze. The "x" indicates they will be analyzing soil and/or liquid samples for that compound. We were able to get most of them. I *think* we'll get results sometime next week. Also, NDEE collected a handful of samples before we arrived at the response and are having them analyzed by a lab in South Dakota.
