I'll see if I can insert some graphics into the photo you sent. The two long white buildings are the storage warehouses where discard seed I received and opened (A), then moved to the north warehouse where it is piled pending use in the distiller (B). The ethanol plant is enclosed in the red circle. The AltEn office is labeled as letter C. The holding areas for wetcake are enclosed in blue boxes. Everything south of the yellow line is Mead Feeders feedlot, not AltEn property.
