Mark,

Attached is the final version of the PFAS Exposure Media Method Validation Report, the updated version of SOP-NHEERL-RCU-PRC-AES-2018-00-r00 PFAS in Exposure Media by UPLC-MSMS, and the supporting documentation and data sets we reviewed this morning. Please review the final version of the validation report. If it meets your approval please reply copying Debbie Andrews (Andrews.Debora@epa.gov) and state that you have reviewed and approved the PFAS exposure media method validation set for QAPP E-ADH-0031359-QP-1-0. I will then forward Debbie the method validation data package for the PFAS exposure media method validation set.

Thanks for your time,
Adam.

Mark,
Attached are the results for the PFAS exposure media method validation. Do you have some time this morning for me to go through them with you?
Adam
