Subject: Proposed SSURO for Plant Growth Regulator

Rick – Thanks for sharing your time and thoughts with us during the national meeting. I heard lots of feedback during hallway conversations and meals regarding the group's appreciation for the opportunity to interact with you and Ed.

Here's the background information on the proposed SSURO for the plant growth regulator product we brought to your attention during your session. Given the length of time that's passed since the ECR was signed and the evolution of the draft PGR guidance, we thought it prudent to check in with Linda and Jeannine before proceeding. During yesterday's meeting with them, they affirmed the conclusions documented in the ECR and expressed their readiness to provide expert testimony should the need arise. However, based on OCSPP management's interest in PGRS and evolving policy developments within sister agencies and internationally, we thought a check-in with you and Ed was also warranted. Greg and I had a brief phone conversation with Ed this afternoon and are sharing more comprehensive background materials with you at his request. Please let us know if you need additional information or have any concerns. I'd be happy to arrange a conference call if a conversation would be helpful.

Thanks,

Royan
