Carol:

Sorry for the delayed response. Between being out of the office and workload, this response got by me.

Can you have a short call tomorrow or Monday?

Thanks
Jason

Subject: Hi Jason

ATTENTION: This email came from an external source. Do not open attachments or click on links from unknown senders or unexpected emails.

Hi Jason – It has been awhile since I've touched base with you. I hope everything is going well with you.

I received copies of the quarterly updates from Arcadis regarding the groundwater and soil gas containment systems at Bethpage Park (OU-3). I figure this would be a good time to touch base with you to see how things are going with OU-3 and with the overall plume remediation (especially regarding the OU-2 off-site groundwater remediation). When you have the chance, pls drop me a line – or feel free to call me – for a brief update on how things are going with the remediation.

I believe that awhile back you may have sent me a link to the current updates for Navy/Grumman Bethpage, but I don't seem to have the link. I have located the general site descriptions for 13003A and 13003B on the DEC database for Inactive Sites (https://www.dec.ny.gov/cfmx/extapps/derexternal/haz/details.cfm?pageid=3), but unfortunately they don't show updated information.

Thanks,
Carol
