Attachments: Draft Public Meeting Presentation for Dry Run_AM.pptx

Flag: Follow up

Hi all-

Thanks for putting this together Dan!

I made a few changes to the site contacts and the agenda. I spoke with Christina from DNREC and they would like to have Tim Ratsep introduce their team in the beginning, which I think is good, so I added that.

Additionally, they would like to present the latest PFAS sampling results for the municipal wells – should be available by Dec. 3. **What do you think of this?** We would need to determine where in the presentation this would best fit.

If you have any questions before our dry run tomorrow, please let me know. I'll plan to get there a bit early to make sure we are all set up and ready to go.

Thanks,

Amanda Miles
