Hi, Kathy – This version (best I can lay my hands on right now) may not be the FINAL final, but it's from the afternoon of the 14th, and should do it for COVID language. Just please don't reintroduce it into the assumption mix like the real final.

Hi Rosemary, do you have a clean, word version of the FRN on FL's request?

I want to share a word version with someone working on a rule to grab the final COVID language but the latest version on sharepoint is September 2nd. Thanks, Kathy
