Also, just spoke with Tom, it is his understanding that John and Mary need to talk and decide how we proceed.

Thanks Tom,

Looks good but a bit long based upon what he will have read for or heard at Tuesday's briefing (as well as his own knowledge. With the direction we've been given for these briefings you may want to consider putting slides (4, 5, 6, and 8) as attachments or background at the end and really put the challenges facing FL's effort front and center. Maybe even include a slide that lays out all that needs to happen to meet FL's goal from MOA with USACE signed and submitted by August 1 as part of complete package, consultation with tribes, public hearing, etc.

I'd delete slides (12, 13, 14, 16, 17, 18, 19, and 20)

As for specific suggestions:
Slide 4,
- I'd move this to background. Maybe move FDEP bullet to previous slide and modify to read:

Ex. 5 Deliberative Process (DP)

- I'd make these talking points

Ex. 5 Deliberative Process (DP)

I will send you Tuesday's materials When I get them back from my management and will send them forward when they are sent to John Goodin for his input.

- Kathy

Please see the attached Powerpoint, which I just provided to Mary with the caveat that y'all haven't reviewed it yet. It clearly needs some tweaking. I'm taking my son to a doctor appointment now but can be available by phone if any of you want to talk. Tom

Mary - Attached is a document that still needs work and hasn't been vetted by the team. I'll send it to them in parallel and will follow-up with any comments they provide. I'm generally available by phone if you want to discuss anything. Tom Ex. 6 Personal Privacy (PP)

Sorry, I just noticed you indicated that you were planning to work on it today. I'm leaving the office in about 45-minutes to Ex. 6 Personal Privacy (PP) but will send you something before I leave. Tom

Please do send me the powerpoint, as that will be what I will use to prepare my talking points and walk through the briefing. Can you send me what you have today? If you have further slides that you'll develop and send later, that's fine - but I have a tight early week next week and need to be able to use today to get my general head around the presentation. We can refine or add slides next week as appropriate.

If, once powerpoint is done, you want to do a one pager, that is good, but I do not it critical.

Thanks Tom
Mary

Hi Mary - On Monday you had provided direction on preparing a draft Powerpoint on FL 404 assumption for next week's David Ross briefing. We're in the process of updating our most-recent Powerpoint, but I wanted to pass along something I heard this morning from Gale Bonnano (while discussing a NRDA issue) about David Ross' preference for briefings. Gale said she understands he prefers one-pagers with background materials which could include a powerpoint document. She also encouraged me to call Ann Campbell for any additional needed clarity on what he prefers. If it's helpful I can call Ann to verify Mr. Ross' preference. I'm also happy to continue with the plan of updating the Powerpoint to use as the basis for the presentation. Thanks. Tom

Subject: Talked w Mary Walker ...

And she and we appear to be on the same page for next Thursday: she will focus on FL 404 assumption by framing the big strategic questions regarding Corps and ESA, as well as how to approach the State in light of our understanding of their legislative proposal. She will briefly mention the Region's intent to approve the FL 303d list and answer any questions Dave has. Mary will take the lead for both, including materials (Note for Mary: feel free to work with OWOW staff as needed prior to mid next week so that we are ready to move the materials to OW NLT 300p Wednesday deadline).

We'll continue to frame the big strategic questions for CWA 404 assumption and FACA next steps for the Tuesday briefing. Thanks Kathy for working with OGC and the Regions on material for the briefing itself and background/appendix/read-ahead.

Note Mary/Jim/Tom– just learned that Dave may probe why EPA is "doing the State's work" on the list where we have added waters, corrected errors, etc. We need to be prepared.

Thanks, All!
John
