If you click edit, it will put the document in edit PDF, all words appear in text boxes for the whole document. It will help with the formatting when you cut in paste. It seemed to work when I tried it Let me know if you need help.

Awesome. Ideally I could do any part of it, so the whole thing would be great!

I believe I do. What parts do you want to copy? Everything?

<< File: MOAUSFWS (003).pdf >> Hi Tasheka! I would loooove to be able to cut and paste from this pdf but the pastes look like a nightmare. Do you by chance know if there's a way to make it into a pretty word doc or at least a pdf that I can copy/paste from?? If not, it's ok, I'm just sick of typing stuff I want to copy.

Thank you!
Alexis
