Attachments: Condensed_Program_Submission_Review__ESA_NHPA_draft4.xlsx

Kelly, Erica – Jeaneanne asked us on this afternoon's call to go ahead and translate the Gantt chart to a visual using another tool like Excel, and said we could ask Erica if she knows of some quick way to do this. I took a quick look because I'm almost positive I've seen "present as Gantt" somewhere in Excel, but of course can't find it now.
The attached document has my export from the most recent Condensed Program Submission Gantt chart PDF you sent, Kelly (7/28/2020, v4 – I'll forward separately), but it didn't capture the dates for the top portion for some reason.
The key seems to be "export to Excel" rather than copy and paste, which doesn't recognize the columns in the PDF it's coming from. Before I spend any more time on this, do either of you know a quick way to do this cleanly?
