Hi Aimee,

We mistakenly entered the EPA review start date tracking element for O3976/26441 ENBRIDGE PIPELINES TEXAS GATHERING LP, which resulted in the project showing up in the below report.

The public comment period actually started 5/24/18. EPA review should actually start on 6/12/18. The tracking elements are in the process of being updated and the project will be reflected in the next report.

Sorry for any inconvenience. Let me know if you have any questions.

Jesse
