Subject: RE: Building RG evaluation

Derek –

I promised in our call on Monday to provide additional information on the EPA consultation process on the use of the RESRAD code to evaluate building remedial goals at Hunters Point. I'm talking to EPA HQ and expect to gain a better understanding of the process in coming days. For now, the best I can do is point you to the June 2014 EPA guidance "Radiation Risk Assessment at CERCLA Sites: Q & A," particularly Q&As ##10 and 16. The guidance is available at: https://semspub.epa.gov/work/HQ/176329.pdf

This is the same guidance mentioned in several EPA letters, including the March 27 and April 11, 2019 letters from Enrique Manzanilla to Laura Duchnak.

We can discuss tomorrow at the BCT meeting.

Derek –

For now, please include Lily and me on your email communications. Who, if anyone, would join you on the Monday call?

Subject: Building RG evaluation

Not sure if I should talk to both of you or not. I would like to have a conversation about the building evaluation before my contractor gets too far into it.

Also do you know which EPA expert will be evaluating our RESRAD inputs? If they are available, it would be good to have a call with RASO and our contractor to discuss.

I will follow this email with an invite for preliminary discussions. Expert call to follow.

Best Regards,
