Peak PRG Supplemental User's Guide

Welcome to the EPA's "Preliminary Remediation Goals for Radionuclide Contaminants at Superfund Sites" (PRG) supplemental user's guide for calculating PRGs based on the time period of peak risk after decay and progeny ingrow Below you will find language describing the peak PRG Output Option that will be inserted into the PRG Calculator Use Guide when the peak PRG option becomes publicly available. This DRAFT ORNL Technical Memorandum offers explanation of the derivation of the peak PRGs.
