Subject: RE: Meeting Request | Class VI UIC Permit Application

Hi David,

July 19 works for California Resources Corporation (CRC) to discuss its project and upcoming Class VI permit application. Any time between 2:00pm – 4:00pm works for us, so please select the specific time that works best for your team. Do you want to send a TEAMS invite? I can then forward to the CRC team.

Thanks and talk to you on July 19.

- Sam

Hi Sam, it looks like we could do 7/14 between 1-4pm, 7/16 at 10am, or 7/19 between 2-4pm. Let me know if any of those times will work. Thanks, David

Hi David,

Apologies for the delay in responding. There was a bit of a miscommunication and it appears your team recently met with my client on its Class VI permit application – California Resources Corporation (CRC). So, I believe we're all set for now. CRC intends to submit the application soon, so it likely makes sense to schedule another call after your team has the time to review the permit application and we can then discuss next steps, answer questions, etc. Sound good?

Thanks! – Sam

Hi Sam, it looks like 7/7 from 9-10am, morning of 7/12, or 7/14 between 1-3pm are available for a Teams call. Let me know if one of those slots will work. Thanks, David

Subject: Meeting Request | Class VI UIC Permit Application

Hi David,

I represent a company that is working on a carbon capture and sequestration project in Southern California. I do not believe EPA Region 9 has been briefed yet on this project and the company intends to submit the Class VI permit application this summer. Prior to submitting the application, the company would like to schedule a meeting with EPA Region 9 to provide an overview of the project, the permit application, introduce the folks working on the project, etc.

Does a 1 hour meeting work for you? If yes, can you please let me know EPA Region 9's availability the weeks of: (i) June 28; (ii) July 5; and (iii) July 12? I am happy to setup a TEAMS call. We obviously defer to you and Ivan who should participate from your office and ORC. Ivan, I was chatting with Laurie and she suggested that I include you on this email since Jenny re-located to EPA Region 2.

Thanks! – Sam
