Hi all,

I was thinking it might be easier for us to just start with an outline using a current table of contents from a tox review (instead of an actual assessment). I am attaching an example that I pulled from RDX that includes that typically major sections in a tox review. This should be consistent with the current (or moved past the latest version of the template). See attached.

We'll need at least a teleconference line for the meeting tomorrow; we used mine last week, and we can use it again if you'd like.

Regarding your question on "cancer descriptors" Ex. 5 Deliberative Process (DP)

But I'm not sure what you mean by "special plans" for addressing these?
