Join us for an exciting session on "EPA's Lead Program and Outreach," presented by OPPT's on Hans Scheifele and Shayna Sellars.

Hans Scheifele currently works in the Existing Chemicals Risk Management Branch #2 on various projects including lead regulatory development and policy, responding to TSCA Section 21 and APA petitions, coordinating NPM guidance, reporting of lead measures, responding to inquiries from Congress, OMG, OIG, GAO, and inquiries related to the budget process. In addition, he represents the branch and division on EJ work. Prior to this he worked as a special assistant to several OPPT Office Directors and Deputy Directors, and in the lead program for approximately 4-5 years each. He also worked in the Office of Enforcement and Compliance Assurance for 5 years coordinating the evaluation of EPA's compliance assistance program and managing several centers that provide assistance to small business sectors to help them understand and comply with EPA regulations. He also previously worked in the Office of Solid Waste and Emergency Response as an assistant to the tribal coordinator and in the Office of Air and Radiation Energy Star Residential Homes Branch. He holds a Master of Business Administration from the University of Maryland and an interdisciplinary Bachelor of Science in biology and psychology from Cornell University.

Shayna Sellars currently coordinates outreach and engagement for the Lead-Based Paint Program for OPPT. She joined OPPT in 2017 and has worked on various projects and products related to lead-based paint. This included coordinating the development of the *Lead Awareness in Indian Country: Keeping our Children Healthy!* curriculum, working with the Office of International Affairs on international efforts to ban lead in paint, coordinating the interagency development of materials and events for National Lead

Poisoning Prevention Week and working with regional offices to implement a new initiative. Prior to joining OPPT, Shayna was a Peace Corps volunteer in Mexico where she worked first in a state park on their environmental education (EE) team and then later for SEMARNAT (Secretary of the Environment and Natural Resources) where she was an EE consultant. She also spent five years working in EE at a few different centers in Minnesota and holds a Bachelor of Science in Textile Chemistry from North Carolina State University and a Master of Environmental Education from the University of Minnesota Duluth.
