Importance: High

Sorry to ask for another one – would you be able to look at this now?

Elizabeth,

I think this one got lost since it came in late on Thursday. I am sorry I am just now sending. Can you have your folks take a quick look!

Hi Folks – Very fast turn-around on this CEQ CCUS report. Would you please share any **major** concerns or issues by 2pm Tuesday. Let me know to what level comments are cleared.

If you are able, please add your office's comments here: 061721 CEQ CCUS Permitting Report_interagency review comments addressed.docx and let me know where you added comments. If you aren't able to access the shared document, I have attached the report. Either way, please send me a note to tell me where you have added signed-off comments.

Based on a very quick review, I think this is primarily for OW (UIC) and OP (permitting), but there are mentions of the GHGRP. There are small mentions of RFS, NSR, RCRA, Title V operating permits & a few other things.
Apparently the original request for feedback came while I was on annual leave (I just got back today!) and I understand from OMB that EPA provided no comment. I don't know which offices got the original request for feedback, so I'm being expansive in reaching out to offices. OMB told me they have a FIRM deadline and there's no room for extensions.

Let me know if you have any questions!

Karen.
