Mr. Bolt

Thank you for your email and your responses to my questions about permitting existing shredding operations. Brooklyn Resource Recovery is gathering the necessary information to prepare a permit application for the shredding operations. We have also had discussions with USEPA regarding an appropriate emission factor. We expect to have the permit application completed and submitted to NYDEC by November 30, 2021, and will reach out if we have any additional questions. We trust that this approximate 60-day timeframe is acceptable to NYDEC. If you have any concerns, please let me know as soon as possible.

Respectfully

Pat Enochs
