Sure, they told me that they submitted the request to me per your advice, but I think its always nice to check. Thanks.

Just to add to George's comment and to respond to the question; we have no objections to approving this.

Thanks for keeping us in the loop.

Jim

Erin,
Kevin Smith, at the facility, and I discussed how to best proceed with this retesting and what you summarized is what he and I agreed on.
Thank you for verifying this.

Subject: Sunoco Marcus Hook Flood Engines

Hi Jim and George,

Marcus Hook has contacted me to request another approval for the variation on engine testing we granted them several years ago, for the 3 sets of flood engines. They are proposing the same testing protocol as before, but will test the "opposite" untested engine from each pair.

Do you have any objections to an approval for this?

****
